

Master Client User Manual & Complete System Operating Guide

The Exhaustive, Step-by-Step Operating Handbook for Business Owners, General Managers, Accounts, Sales Executives, and Support Teams

Live Cloud Portal	https://sobhainfra-erp.netlify.app (Accessible on PC, Tablet & Mobile)
Target Audience	Super Admins, Department Managers, Accounts Team, Sales Executives, Support Agents
Connected Integrations	TallyPrime (Port 9000), Meta WhatsApp Cloud API, Official Gmail SMTP, GPS Field Tracking
Multi-Company Scope	SHOBHA BUILDTECH, SHOBHA READY PLAST, SOBHAINFRA TECH PVT LTD
Core Automation	5-Min Tally Auto-Sync, WhatsApp 2-Page GST Invoicing, 360° Ledger Drawer, GPS Visit Proof

Table of Contents & Quick Sitemap:

1. Day 0: System Access & First-Time Setup	10. Gmail & Branded Outbound Email Center
2. Multi-Company Profiles & Workspace Switcher	11. Task Proof Review & Supervisor Approvals
3. Team Roles, Hierarchy & Adding Employees	12. Field Operations & Mobile GPS Check-In
4. Executive Dashboard & Enterprise Analytics	13. Finance, TallyPrime Cloud Sync & Invoicing
5. CRM Pipeline & Customer 360° Management	14. 360° Customer Ledger & Financials Drawer
6. Bulk Lead Import & Deduplication Engine	15. Payment Follow-ups & Commitment Pause
7. WhatsApp Marketing & Campaign Studio	16. Visual Automations & Trigger Rules Engine
8. Personalized Dynamic Broadcast Variables	17. System Settings, Storage Safety & Quotas
9. 24/7 AI Sales Assistant & Live Inbox	18. Troubleshooting & Comprehensive FAQ Guide

Chapter 1: Day 0 System Access & First-Time Setup

SobhaiInfra ERP is a 100% cloud-hosted enterprise platform. It requires zero local installation on staff PCs and works seamlessly across desktops, laptops, tablets, and smartphones.

How to Log In for the First Time:

1. Open Google Chrome, Microsoft Edge, or Safari on your device.
2. Navigate to your secure web portal: **https://sobhainfra-erp.netlify.app**
3. Bookmark the URL for instant 1-click access every morning.
4. Log in using the default Super Admin credentials below:

Field	Default Credential	Action Required
Admin Email	admin@erppro.in	Primary superuser account with full access.
Admin Password	admin1234	Must be changed immediately after first login.

■ **Mandatory Security Step:** Navigate to **Settings > Security & Profile** immediately after first login to update your password and set your official business recovery email.

Chapter 2: Multi-Company Profiles & Workspace Switcher

If your business operates multiple sister entities, manufacturing units, or trading firms, SobhaiInfra ERP keeps invoices, bank accounts, ledgers, and GST numbers 100% isolated.

Company Entity	GSTIN & Location	Operational Role & Isolation
SHOBHA BUILDTECH	Valsad, Gujarat	Handles construction contracting, trading invoices & voucher ledgers.
SHOBHA READY PLAST	24AGCPJ2785R1ZV Sarodhi, Valsad	Manufacturing plant bills, 2-page GST consignment Tax Invoices.
SOBHAINFRA TECH PVT LTD	Registered Office	Corporate administration, tech consulting & billing.

How to Switch Active Workspace with 1 Click:

- Locate the **Active Company dropdown** in the top-left sidebar.
- Select the desired company (e.g. *SHOBHA READY PLAST*). A floating notification confirms the switch.
- All invoices, dashboard totals, aging tables, and ledgers instantly filter for that company.
- Select '■ **All Companies**' to view the consolidated enterprise overview.

Chapter 3: Team Roles, Hierarchy & Adding Employees

The system enforces strict Role-Based Access Control (RBAC). Employees only see information required for their duties, protecting confidential banking and master settings.

Role	Permissions & What They Can Do	Restrictions & What Is Blocked
Super Admin	Full access: Multi-company settings, finances, team creation, approvals, deletions, and master configuration.	None. Root system controller.
Manager	Assign tasks, verify GPS field check-ins, approve employee task proof, send broadcast campaigns.	Cannot delete company profiles or alter master system credentials.
Sales Executive	Manage assigned leads, mobile GPS site check-ins, submit task proof for review, send 1-on-1 WhatsApp.	Cannot mark tasks as 'Done' directly; cannot view raw banking credentials.
Accounts	Finance center, trigger Tally sync, pause payment reminders, download PDFs, view debt aging.	Cannot modify CRM lead assignments or delete staff accounts.
Support Agent	Handle WhatsApp Live Inbox, answer customer queries, qualify incoming leads.	Cannot access accounting ledgers or master admin panel.

Step-by-Step: Adding a New Employee Account:

1. Open **Roles & Access** from the sidebar menu > Click **+ Add Team Member**.
2. Enter Full Name, Official Email Address, Mobile Phone Number, and initial password.
3. Select the appropriate Role (e.g. *Sales Executive*) and Department.
4. Click **Save Team Member**. The employee can now log in immediately on their phone or PC.

Chapter 4: Executive Dashboard & Enterprise Analytics

The Dashboard provides real-time financial, operational, and sales performance indicators at a single glance:

Dashboard Widget	Data Tracked & Business Utility
Financial KPI Cards	• Total Revenue: Total billed invoices across synced Tally vouchers. • Cash Collected: Payments received & settled in bank. • Outstanding Balance: Total pending dues requiring follow-up. • Overdue Risk: Critical debt past due terms.
Sales Pipeline Funnel	Visual breakdown of prospects across stages: New → Contacted → Qualified → Site Visit → Proposal → Won.
Monthly Collection Chart	Month-over-month cash collection trajectory vs target milestones.
WhatsApp & AI Stats	Total messages dispatched, delivery success %, and AI auto-response count.
1-Click Quick Actions	Fast shortcut buttons: + <i>New Lead</i> , <i>Send Broadcast</i> , <i>GPS Check-in</i> , <i>Sync Tally Now</i> .

Chapter 5: CRM Pipeline & Customer 360° Management

The CRM tracks customer relationships across the entire sales lifecycle, supporting direct communication and qualification scoring.

Pipeline Stage	Meaning & Recommended Staff Action
1. New Lead	Fresh inquiry from WhatsApp, Meta Facebook/Instagram Ads, or website. Needs call within 15 mins.
2. Contacted	Sales executive has called prospect to understand requirements (product, quantity, delivery location).
3. Qualified	Prospect confirmed purchasing budget, product requirement (e.g. Ready Plast), and timeline.
4. Site Visit	Field representative visit scheduled at construction site or factory demo.
5. Proposal Sent	Official price quotation or catalog dispatched via WhatsApp / Email.
6. Won / Lost	Won: Deal closed and converted into customer. Lost: Inactive (reason recorded for analytics).

Customer 360° Profile Modal: Click on any lead name to open their complete history: Activity Timeline, WhatsApp Chat history, Site Visit photos, Attached documents, and Billing status.

Chapter 6: Bulk Lead Import & Deduplication Engine

Import thousands of existing customer records or exhibition visitor lists from Excel / CSV in seconds without creating duplicate records.

How to Bulk Import Leads:

1. In **CRM & Leads**, click the **Bulk Import** button.
2. Select your CSV or Excel file (containing Name, Phone, Email, Company, City).
3. **Column Mapping:** The system automatically matches your Excel columns to ERP fields.
4. **Smart Deduplication:** Phone numbers are normalized (+91 format); existing records are updated rather than duplicated.
5. Click **Confirm & Import**. All leads are added instantly with full searchability.

Chapter 7: WhatsApp Marketing & Campaign Studio

Broadcast official product announcements, factory price updates, or festival greetings to hundreds of customers via Meta WhatsApp Cloud API with built-in delivery pacing.

How to Create & Dispatch a Broadcast Campaign:

1. Open **WhatsApp & CRM > Campaign Studio > Click + Create Campaign**.
2. **Audience Filter:** Choose *All Leads*, *Qualified Prospects*, *Overdue Debtors*, or filter by City/Tag.
3. **Write Message:** Compose text using dynamic personalized tags.
4. **Attach Media:** Upload a product photo (JPG/PNG) or an official PDF brochure.
5. **Interactive Quick Replies:** Add buttons like [■ Send Brochure] or [■ Call Executive].
6. Click **Send Broadcast**. Messages are queued and sent with anti-ban pacing delays.

Chapter 8: Personalized Dynamic Broadcast Variables

Use dynamic placeholder tags in your campaign templates. The system replaces each variable with the recipient's exact details at the time of delivery:

Tag Variable	Replaced Value	Example Output in WhatsApp
{name}	Customer's Full Name	'Dear Rajesh Sharma,'
{company}	Customer's Business / Entity	'...for your firm Aai Ekvira Enterprises'
{product}	Target Product Name	'New batch of Ready Plast is ready'
{amount}	Invoice / Pending Amount	'Outstanding bill of ■45,000 is due'
{due_date}	Invoice Due Date	'Due on 25-Aug-2026'
{city}	Customer's City / Location	'Free delivery available in Valsad'

■ **Thread Continuity:** All campaign messages are automatically saved in the Live Chat Inbox. When a customer replies, their reply shows up in the same thread!

Chapter 9: 24/7 AI Sales Assistant & Live Multi-Agent Inbox

Your official WhatsApp Business number is monitored 24/7 by an AI assistant that handles inquiries, provides product rates, shares brochures, and fetches bills automatically:

Customer Inquiry	What the AI Assistant Does Automatically
'What is the rate of Ready Plast?'	Looks up your live product catalog and provides verified official pricing.
'Send brochure / catalog'	Delivers the official product specification PDF download link instantly.
'Mera bill bhejo / Kitna baaki hai?'	Calculates net outstanding balance, lists overdue bills, and attaches the GST Invoice PDF.
'I want to speak with sales'	Notifies your sales team and flags the chat for Human Agent Takeover.

Human Takeover in Live Inbox: Go to **Chatbot & Auto-Reply > Live Inbox**, click any chat, and type a reply. The AI automatically pauses, allowing staff to negotiate directly.

Chapter 10: Official Gmail & Branded Email Center

Send formal infrastructure proposals, rate sheets, and invoices with your official company logo directly from your corporate Gmail address.

1-Time Setup: Connecting your Gmail Account:

1. Open your Google Security page at <https://myaccount.google.com/security>
2. Turn on **2-Step Verification**.
3. In the top search bar, type '**App passwords**' and click on it.
4. Name the app '**SobhaiInfra ERP**' and click Create.
5. Copy the 16-character code (e.g. abcd efgh ijkl mnop).
6. Open ERP > **Settings > Email & Gmail SMTP**, paste the password, and click Save.

Pre-Built Templates: Product Quotations, Site Visit Confirmations, Overdue Reminders, Welcome Letters.

Chapter 11: Task Proof Review & Supervisor Approvals

To ensure operational accountability and eliminate false claims, employees cannot simply mark tasks as completed. Every task requires verifiable proof reviewed by a supervisor.

Stage	Actor	Action Performed in ERP
1. Task Assigned	Admin / Manager	Task created with description, client name, priority, and deadline.
2. In Progress	Employee	Employee performs the work in the field or office.
3. Submit Proof	Employee	Employee clicks ' Submit Proof for Review ', writes work notes, and attaches photos/payment links. Task status becomes Under Review .
4A. Approve (Done)	Super Admin / Manager	Manager inspects proof and clicks Approve & Mark Done . Task is closed with timestamp.
4B. Request Revision	Super Admin / Manager	If proof is inadequate, manager clicks Request Revision with corrective feedback.

■ **Manager Efficiency:** 1-Click Daily Routine: Managers can click 'Generate Daily Routine Tasks' to auto-create daily follow-up checklists for all sales reps in 1 click!

Chapter 12: Field Operations & Live GPS Mobile Check-In

Track sales executives and site engineers visiting builder sites, dealer outlets, and construction projects in real time.

How Field Staff Log a Site Visit on Mobile:

1. Open **Field Ops & GPS Live** on your mobile browser.
2. Tap **Check In at Customer Site**.
3. The phone's GPS captures **Exact Latitude/Longitude, Landmark & Current Time**.
4. Take a live site photo, select the client, enter meeting notes, and tap **Submit Check-In**.
5. Managers can view all visits live on an interactive map with mileage and site verification tags.

Chapter 13: Finance, TallyPrime Cloud Sync & Auto-Invoicing

The Tally Connector bridges your on-premise TallyPrime software with the cloud ERP every 5 minutes automatically.

How to Run the Tally Connector on the Client PC:

1. Ensure **TallyPrime is running** with your company open.
2. Verify in Tally: F1 > Settings > Connectivity > Port 9000.
3. Double-click ``start_sync.bat`` in your ERP folder to start live sync.
4. (Optional) Run ``setup_autostart.bat`` once as Administrator so Tally sync starts on Windows boot.

What Happens Automatically: Extracts vouchers, generates 2-Page Consignment GST Tax Invoice PDFs, and **auto-sends the PDF to customer WhatsApp numbers upon billing!**

Chapter 14: 360° Customer Ledger & Financials Drawer

Go to **Finance & Tally > Ledger Mappings** and **click anywhere on a party row** to open the 360° Drawer:

Drawer Tab	Contents & Business Utility
1. Overview Tab	• KPI Strip: Total Billed, Paid, Net Outstanding, Overdue amounts. • 4-Bucket Aging: 0–30 days (Current), 31–60 days, 61–90 days, 90+ days (Critical). • Summary Cards: Largest voucher, last transaction date, Tally sync source.
2. Vouchers Tab	• Chronological table of all invoices, receipts, and payments. • Shows Date, Voucher #, Amount, Status, and Download PDF button for instant printing.
3. WhatsApp History	• Invoice reminder tracker (shows count of reminders sent). • Live chat conversation timeline with delivery status (✓ Delivered, ✓✓ Read).

- **1-Click CRM Add:** Click + **Quick Add CRM** next to any unmapped Tally ledger to create a CRM customer profile in 1 second.

Chapter 15: Payment Follow-ups & Commitment Pause Mode

Automate overdue payment recovery while respecting customer promises and credit terms:

1. In **Finance & Tally > Invoices & Aging**, find the client invoice and click **Pause (■)**.
2. Select Reason (e.g. '*Customer promised payment on Friday*'), choose Promised Date, and click Confirm.
3. The automated reminder bot will stay silent until the promised date passes!
4. When payment is received in Tally, it syncs within 5 minutes, automatically marking the invoice Paid and disabling reminders.

Chapter 16: Visual Automations & Trigger Rules Engine

Create visual if-this-then-that automation workflows under **Automations**:

- **Trigger:** When an invoice becomes overdue by > 7 days.
- **Condition:** Customer balance is greater than ■10,000.
- **Action:** Send WhatsApp payment reminder with UPI QR code and assign follow-up task to Accounts team.

Chapter 17: System Settings, Storage Safety & Quotas

The **Settings** module contains master business configurations and automated maintenance tools:

Settings Section	Configurations & Master Controls
General Profile	Org Name, Company Logo, QR Code, GSTIN, UDYAM registration, Address, Default Currency.
Multi-Company	Register new sister companies, set aliases, and switch default primary entity.
AI & Knowledge Base	AI System Prompts, Knowledge base articles, Product Catalog & official rate charts with SKU/brochures.
WhatsApp API	Meta App ID, Phone Number ID, WhatsApp Business Account ID, Access Tokens & Webhook callbacks.
Gmail & SMTP	Official Gmail user, 16-character App Password, SMTP host (465/587), test email dispatch.
Payment Gateway	Default bank details, UPI ID, auto-reminder schedules, grace periods.
Storage Health	Category retention toggles (30/60/90 days), 1-Click Safe Purge to stay 100% within free limits.

Chapter 18: Troubleshooting & Comprehensive FAQ Guide

Question / Issue	Direct Solution for Business Staff
Tally sync says 'Port 9000 not reachable'	Ensure TallyPrime is open on the host PC. In Tally, press F1 > Settings > Connectivity and verify port is 9000. Double-click start_sync.bat.
Customer did not receive WhatsApp invoice PDF	Verify the customer's 10-digit mobile number is entered in Tally ledger contact details or mapped in ERP Ledger Mapping master.
Employee cannot mark task as 'Done'	This is an intentional feature. Employees must click ' Submit Proof for Review '. Only Super Admins and Managers can approve and mark as Done.
How to view data for only one company?	Click the Active Company dropdown at top-left sidebar and select your company (e.g. <i>SHOBHA READY PLAST</i>).
How to link an unmapped Tally ledger?	Go to Finance > Ledger Mappings and click + Quick Add CRM to automatically create a CRM profile and link the party in 1 click.
Customer promised to pay next week; how to stop reminder spam?	Find the invoice in Finance > Invoices , click Pause (■) , select the promised payment date. The bot will automatically stay silent until that date.
How to send an official PDF brochure on WhatsApp?	In Campaign Studio , write your message, click Attach Document, upload your brochure PDF, and add a quick reply button.
Can multiple users log in simultaneously?	Yes! SobhaiInfra ERP supports unlimited concurrent users across desktops and smartphones with dedicated role permissions.
